

App-Description (Daily Planner)

Purpose:

The purpose of the Daily Planner app is to write down your goals of the day or week. For every goal you complete you get a point and for every goal you miss you get a minus point. Depending on the amount of points you get you can achieve certain achievements.

Target audience:

The target audience is for students. Makes it easier for them to plan out their academic studies and give them incentive to achieve those goals.

The main function:

The main two functions are the Goal(write down the goals) and Check functions (check the functions you have completed).

- Goal function: Write down the goals you wanna do
- Check function: Check the goal you have completed
- Edit function: Specify at what time it should be done
- Summary function: Get an overview of the percentage goals you have completed.
